## SUMMARY

---

I enjoy learning about all things computers. I currently have main interests in embedded systems, systems software, and software engineering. I am currently pursuing a Ph.D. in Computer Science at the University of Central Florida.

## WORK EXPERIENCE

---

**Lead Instructor: Mathnasium of Lake Mary** Feb 2020 - August 2023

As a lead instructor, I oversaw training for other instructors, worked with many different students, and resolved conflicts with parents.

**High School Math Teacher: Academic Community Enrichment** August 2023 - May 2025

I developed a curriculum and taught high school math ranging from Pre-Algebra to Pre-Calculus. Alongside math, I also taught introductory programming in Python.

**Undergraduate TA Embedded Systems: UCF** August 2023 - August 2024

As an undergraduate teaching assistant, I ran the embedded systems labs. This involved helping students program MSP430, read documentation, and debug C code.

**Graduate TA Systems Software: UCF** August 2025 - Current

As a graduate teaching assistant, I run lab help sections to provide extra insight from class, help debug C and C++ code, and help with the Antlr tool chain.

## PROJECTS

---

**Arduscript** [Link to Demo](#)

This project is intended as a teaching compiler to be used as an introduction to programming with embedded systems. This is a custom language that I created intended to use python like features that compiles into Arduino IDE code that can then be flashed onto any system that is supported. The language is very basic as its intention is only introduction to embedded systems.

**B.I.R.D.S.** [Link to Demo](#)

This project was the senior design showcase winner at spring UCF 2024. My contribution to this project was writing all of the embedded software that interfaced the different sensors using the ATmega328PB and working with the image recognition software being run on the Jetson Nano.

## EDUCATION

---

2025 - present	PhD (Computer Science) <b>University of Central Florida</b>	(GPA: 3.9/4.0)
2024 - 2026	Master's Degree (Computer Engineering) <b>University of Central Florida</b>	(GPA: 3.9/4.0)
2020 - 2024	Bachelor's Degree (Computer Engineering) <b>University of Central Florida</b>	(GPA: 3.9/4.0)
2016 - 2020	AA (General Education) <b>Seminole State College</b>	(GPA: 3.6/4.0)

## SKILLS

---

Embedded Systems, Systems Software, C and C++, Python, Antlr4.
