SUMMARY

Graduate in computer engineering with interests in embedded systems, system software, and software engineering. Experienced with low-level programming languages, computer architecture, and systems development through academic projects and research. I completed my Master's in Computer Engineering at the University of Central Florida (UCF).

WORK EXPERIENCE

Graduate Instructor Systems Software: UCF

August 2025 - Current

Skills: *C, C++, Linux, Antlr, Compilers, Git*

- Ran lab sections ranging from linux system calls to compilers.
- Assist in programming of a simple shell and a basic compiler.
- Programming and debugged in C and C++

Undergraduate TA Embedded Systems: UCF

August 2023 - August 2024

Skills: *C, MSP430, Code Composer Studio*

- Ran lab sections for learning the MSP430
- Read documentation of software and hardware related to the MSP430
- Programming and debugged in C using JTAG

High School Math Teacher: A.C.E.

August 2023 - May 2025

Skills: *Communication, Adaptability, Problem-Solving*

- Taught a class introductory programming in Python
- Led the class in learning of high school math from Pre-Algebra to Pre-Calculus

Lead Instructor: Mathnasium of Lake Mary

Feb 2020 - August 2023

Skills: *Leadership, Collaboration, Conflict Resolution*

- Led and trained a team of instructors to work with different students various levels of math

PROJECTS

Arduscript [Link to Demo](#)

Skills: *Python, Antlr, Compilers*

- Designed a custom compiler in Python
- Created a custom scripting language that is parsed by the Antlr toolchain.
- Compiles into Arduino IDE compatible code to be flashed to any compatible system

B.I.R.D.S. [Link to Demo](#)

Skills: *Python, C++, ESP32, ATMEGA, Jetson Nano, PCB Design*

- Designed a system to aid in training birds to pick up cigarettes
- Wrote code in C++ to go through and process various sensors and trigger the next stages of the system
- Developed an image recognition model to detect cigarettes using the Jetson Nano
- Wrote code in Python to interface the image model and send data to an embedded device

EDUCATION

2024 - 2026	Master's Degree (Computer Engineering)	University of Central Florida	(GPA: 4.0/4.0)
2020 - 2024	Bachelor's Degree (Computer Engineering)	University of Central Florida	(GPA: 3.9/4.0)
